## Tecnica Gasket SpA - Regulatory

### RoHS (Restriction of Hazardous Substances)

None of the substances mentioned in the Directive 2015/863/EU amending Annex II of 2011/65/UE are intentionally introduced. Therefore they are not expected to be present in amounts exceeding the defined limit values.

### Heavy Metals

Directive 2000/53/EC (End-of life vehicles) - None of the substances involved (lead, chromium VI, cadmium, mercury) are intentionally introduced. Therefore they are not expected to be present except for trace amounts from incidental environmental contamination. Analytical data is not available.

### BSE/TSE

The product does not derive from human or animal origin and for its manufacturing no intermediates and/or auxiliary agents which are of human or animal origin are used.

### Biocide

Regarding the EU Reg. (CE) 528/2012, based on the data received from our suppliers, we declare that the compounds DO NOT contain intentionally Biocide substances.

### Conflict minerals as defined in section 1502(e)(4) of H.R. 4173 of the Wall Street Reform, Consumer Protection Act and 2017/821/UE

None of these substances are contained in our items.

### POP (Persistent organic pollutants) as defined in Regulation (EU) 2019/1021 (Stockholm Convention)

The substances mentioned above are not intentionally introduced. Therefore they are not expected to be present except for trace amounts from incidental environmental contamination. Analytical data is not available.

#### Reach - EU directive 1907/2006/EC

Based on the information received from our suppliers, we declare that our products are free of dangerous substances listed on "List of Substances of Very High Concern for Authorization " (SVHC) updated on 10.06.2022 ("REACH").

Only when the concentrations of the following CAS numbers are > 0.1%:

- CAS 96-45-7
- CAS 10043-35-3 / 11113-50-1
- CAS 123-77-3
- D4 CAS 556-67-2
- D5 CAS 541-02-6
- D6 CAS: 540-97-6
- CAS 119-47-1
- CAS 1067-53-4
- CAS 924-42-5

the final products will be registered on the official SCIP web portal (upon request of customers).

Please note:

- D4-D5-D6 chemical substances are most frequently used as raw materials for the production of all silicone polymers.
- It is not possible to guarantee products totally free of those substances because impurities may be contained inside the raw materials compounds. However any concentration of impurities are within the 0.1% threshold established by law.

Please note that it is not possible to guarantee absolute absence of those substances in the final product due the possibility of impurities contained inside the raw materials.

However the impurities are within the 0.1% threshold established by law.
